

# Safety comes with many rewards

All-Safe is an online portal that connects you with the information, resources, and training you need to stay safe and successful—all in one convenient location. AgriSphere's All-Safe gives you unlimited access to years of expertise in developing and managing safety programs that meet your needs. The portal includes resources in areas such as:

- Facility safety assessment
- Job hazard analysis
- Documents (programs, procedures, reports, etc.)
- Emergency action planning
- Grain dust fire and explosion prevention
- Confined space and grain bin entry programs
- Sweep auger programs
- Preventative maintenance and records
- Programs for other hazards associated with grain handling facilities

## Why All-Safe<sup>®</sup>?

### Safe operations bring peace of mind

Whether it's required annual training or quick and effective training of new hires and seasonal employees, All-Safe takes the stress out of developing and managing your safety program.

### Customized training based on on-site consultation

After our initial visit, we'll recommend a customized service and training plan; all of our lessons can be subscribed to individually, so you only pay for the training you need.

### Save money through insurance discounts

When you invest in the health and safety of your employees through AgriSphere's All-Safe, our insurance provider partners reward you with discounts in your insurance premiums.

### Special pricing for Personal Protective Equipment (PPE)

Within the All-Safe portal, you'll find PPE vendors and specific part numbers that we recommend. We also provide discounts, incentives, and special pricing on that equipment.
